

EVTKS™

Capability Statement

Company Overview:

EVTKS provides solutions for Configuration Management, Cyber Security, and Aerospace Engineering Support. We are sub-contracting with ASRC Federal System Solutions, LLC under the FAA Nas-E 6973GH-26-D-00022 contract. We have previously supported other FAA contracts, shown below. We have additionally worked with a 501(c)(3) Non-Profit Organization with net assets that exceed \$300 million. For the last 14 years we have conducted installations, upgrades, and support both virtually and on-site to at least 500 airports and many other locations across the United States. Our executive team also has experience working with the United States Air Force for over 4 years and other Prime Contractors, such as, L-3 Communications. We have several acquisition options which include Small Business set-aside, Veteran set-aside, and Micro Purchasing.

Experience:

US Map of EVTKS Support Sites

Sub-contracting on FAA NAS-E Contract

(Prime Contractor ASRC Federal Advanced Research, LLC.) 6973GH-26-D-00022

Date(s): 03/2026 - Present

Value: \$5,400,000.00

Point of Contact: Ray Meier, (405)954-4698

Supports the integration of systems engineering for FAA National Air Space (NAS) programs, providing engineering services and technical support for the SLE Groups. (Air traffic management enterprise, analyzing enterprise safety, defining security standards, guiding and informing systems engineering, and analyzing NAS performance)

Sub-contracting on FAA TNT Contract (Prime Contractor Arctic Slope Technical Services, Inc.) DTFAC-17-D-00004

Date(s): 02/2021 - Present

Contract Value: \$2,368,800.00

Point of Contact: Patricia Horan, (609)484-6209

Liaise with ASRC Federal Team, FAA, DoD, and other vendors to provide installations, upgrades, and other repairs to airports radars across the United States (to include Puerto Rico, Hawaii, and Guam).

Sub-contracting on FAA NAS-E Contract (Prime Contractor ASRC Federal System Solutions, LLC.) 6973GH-18-D-00008

Date(s): 10/2024 - Present

Value: \$920,000.00

Point of Contact: Ray Meier, (405)954-4698

Supports the integration of systems engineering for FAA National Air Space (NAS) programs.

501(c)(3) Non-Profit Organization

Date(s): 2011- Present / Value: \$50,000 / Point of Contact: Dulce Gabriel, (856) 777-3443

Created a secure network for approximately 50 static and dynamic devices. Purchased, installed, and maintained security system and audio and visual system spanning across buildings of at least 10,000 sq. ft.

Executive Experience

L-3 Communications

Date(s): 10/2007-05/2011 - Created Testing Development Plan for incoming data. Supported, Troubleshooted, and Restored ASR-9 Radars facilities, including Newark Int. Airport, and Atlanta Intl. Airport (Both OEP Airports).

USAF

Date(s): 02/2003- 09/2011- Maintained, tested, and upgraded the ASR-9, IFF, Precision Approach Radar, and other ground radar systems for military use while leading a team of 20 technicians.

Company Snapshot:

CAGE: 8MZC4

UEID: MJ9LDNBUB5M6

DUNS: 967199568

Socio Economic:

Minority-Owned Small Business

Veteran-Owned Small Business

Primary NAICS/PSC Codes:

541330 – Engineering Services

334511 - Search, Detection, Navigation, Guidance, Aeronautical, and Nautical System and Instrument Manufacturing

541513 – Computer Facilities Management Services

541990 – All Other Professional, Scientific, and Technical Services

541690 – Other Scientific and Technical Consulting Services

811210 – Radar and Sonar equipment repair and maintenance Service

Core Capabilities:

- Automated and manual software application testing
- Engineering Services on the Remote Monitoring and Logging System (RMLS)
- Developing Platform level architectures and designing engineering documents
- Providing cybersecurity support for airport resource management tool system and electronic flight strip transfer system
- Performing hardware/software maintenance and installations on Air traffic control (ATC) system

What sets EVTKS apart from the competition?

- With our 15 years of experience, we are able to solve your challenges with tailored solutions
- We have worked to support just under 10,000 nautical miles of airspace below 25,000 ft. across the United States
- Excellence in diversity—each member of our team comes with specialized experience (military, commercial, certifications, etc.)
- We have experience supporting more than 136 locations across the United States and its territories.
- At least 20 field deployments annually for FAA systems (RDAP, STARS, etc.)
